

AI for Civic Participation

Vision

- **Human-centric AI** for civic participation
- Transparent & fair decision-making
- Empowerment of **vulnerable groups**
- Strengthening **democracy**

What we do

- Assess **social contexts & legal frameworks**
- Contact participatory activities
- Develop **AI tools & platforms**
- Provide **policy recommendations**

Our Approach

- 1 Social & legal assessment
- 2 Participatory engagement
- 3 Tool development & testing
- 4 Platform deployment
- 5 Continuous updates & validation
- 6 Policy impact & evaluation

Impact

- More inclusive civic participation
- Increased trust in AI systems
- Transparent governance processes
- Ethical AI aligned with EU values
